

WAUSAU INSURANCE COMPANY'S CONFERENCE FACILITIES

WAUSAU, WISCONSIN

PROJECT DESCRIPTION:

This project consisted of the phased development of five (5) specialized conference facilities for inclusion in the Wausau headquarters campus located in Wausau, Wisconsin.

The first conference facility consisted of a customer presentation and briefing suite located within the headquarters building. Subsequent phases included an 8-person classroom, a large 200-person auditorium and a 40-person conference room/classroom.

All of the facilities employ compatible rear-screen video projection systems augmented with multi-image, high-resolution computer graphic presentation system.

ACSI'S RESPONSIBILITIES:

ACSI 's first engagement was for the planing and design of all media production and presentation systems for the Westwood training and conference facility. Upon completion of that project, Wausau once again engaged ACSI to assist with the creation of a highly specialized customer briefing facility.

Wausau considered the finished briefing facility to be a well-balanced blend of state-of-the-art communications technology and a comfortable working environment.

ACSI provided the following services:

- Architectural And Engineering (A/E) Facility Planning And Design Criteria
- Electro-Optical System Planning'
- Video Display System Design
- Computer-Controlled Presentation System Design
- Progress Development And Manual Control Sys-System Design
- Full Acoustical Services (Facility/Sound Systems)
- Furniture Design Concepts And Studies
- Lighting Design
